MYST WITH A TWIST.

You're lost in a 3-D LATEX city of the future. It's up to you to explore every gutter and rooftop of the city, pick up erotic clues, soak in the sexually graphic visuals on the cyber-kiosks, and unravel the cryptic messages on the video billboards. Do it right and you'll make your way to blue skies and freedom. If not, You'll be trapped forever in a dark, foreboding world of unrelenting decadent sex.

Which, come to think of it, isn't such a bad fate after all.

What a long strange year it's been

AT THIS TIME LAST YEAR, adult interactive CDs might not have even existed, as far as magazines were concerned. No one covered it. The magazines that allowed advertising for adult CDs had banished it to the back of the book, without graphics. People that mentioned it at all in the mainstream media referred to cyberotica as a plague and a scourge.

Fast forward: Now there are a couple of magazines out there besides us, covering the world of interactive entertainment for adults. As this magazine comes out, AdultDex, the first major show dedicated solely to adult multimedia entertainment will be commencing. At least 25,000 people are expected to attend. *The New York Times* covered the subject, favorably. They even interviewed our associate publisher.

Beyond coverage, though, this year the state of the art in adult multi-media cranked up a couple of notches.

Virtual Valerie 2 would be an awesome piece of rendered software in any marketplace. *The Interactive Adventures of Seymore Butts II: The Pursuit of Pleasure* would play well as a game, even if it weren't an erotic game. *Space Sirens 2* would be a cool shoot 'em up even if the payoff wasn't erotic. In the best disks released this year, the interactive element was most important.

The base of CD-Rom drives will likely double again next year. Nearly every new computer sold this holiday season will have a CD-Rom drive. There is no getting away from it. With the expanded base of CD-Rom users, it stands to reason that adult multimedia will grow, too.

With the coming of Pixis' *Diva X* (a series of disks) and promised innovations from New Machine and the other players in this ballpark, next year is shaping up to be even more exciting. The technology grows exponentially, and so does the potential fun.

RELEASING

Arrested for enough computer security violations to start a war, you are the most dangerous computer hacker in the business. Because of your valuable skills, high officials in the ruling political party have offered you a deal -- break back into cyberspace and crack the security system of the opposition prior to the upcoming election. You can go after any of your assigned targets in whatever order you wish - but beware - the more powerful your opponent, the better his security will be and the more likely his cybercoys will catch you in the act.

By defeating opponents and successfully recording some good dirty video. You will receive cybercredits and some hacking utilities. The credits will help you bribe those pesky cybercops and the additional hacking software will make breaching security easier.

Once you have gathered enough credits and hacker tools. You'll be ready to go after the presidential candidate. And by the way, don't forget to find all the goodies along your journey. Good Luck....

WEB-STER'S DICTIONARY

Hi all,

I was wondering if you had a Web Page, and if so, what is it? Also do you know of any other interesting places on the Web?

Thanks

TIM C.

Yes Tim, it's <http://www.igmag.com>. By the time you read this the Interactive Quarterly web page should be up and running. Keep your browser peeled. In the mean time, check out Ed Tsunoda's new Caught In The Web column for other interesting un-real estate to visit.

HOW TO WIN FRIENDS AND INFLUENCE SOFTWARE

Dear Editor

Thank you for reviewing Rapture Interactive's *Cyberstrip Poker* and *Blackjack*. We have received a lot of input. Some found the games extremely difficult. Others found it perfectly satisfactory. For added variety, Rapture has made the following changes:

Players can now bypass the introduction and the station's host. We also gave each dealer a different amount of money to lose before she sheds her clothes. This enables the player to pick a girl according to ability and how fast they'd like to see a beautiful naked dealer.

Rapture looks to improve the level of interactive gaming for increased enjoyment of their players.

SINCERELY

**RAPTURE CYBERSTRIP
DEVELOPMENT TEAM**

It's good to see Buddy Scalera's critique of your product did some good.

OUR HERO

Hello IQ people

I am so happy to see such a fine magazine devoted to adult CD-Rom entertainment. I have waited patiently many years for a magazine like yours. You have my sincere congratulations and best wishes for success!

The latest issue is excellent. I love the layout and article you did on my VV2 disc. I really appreciate your kind attention.

MIKE SAENZ

**(HEAD OF REACTOR AND CREATOR
OF VIRTUAL VALERIE)**

Shucks, Mike. We're honored. Really.

THE MAG READ AROUND THE WORLD

Dear Editor

I long for this kind of computer magazine for a long time.

Unfortunately, your magazine cannot be found in Hong Kong. Please send me a subscription form as soon as possible. I cannot wait. I want to read and possess it.

YIM K, HONG KONG

Dear IQ

I am 23 years old. In my spare time I usually program in C on my PC486DX33. In my country everything (is) pirated. I'm tired of pirates!!!. There are no worse disasters than when a free man (me!) is born in a country of slaves. But my spirit is strong and I don't give up.

I wish you all the best from me and my friends who really respect your work and your desire to make something really worth while. Keep on with your excellent work and stay well.

**MARIO MORELA, INDEPENDENT
PRESS OF YUGOSLAVIA**

THE GOOD

Dear IQ

I'm amazed that this business has justified a magazine — Thanks. I'm amazed at the production quality and the reviews. You're doing a great job.

MARK ROSE, N.Y.

Dear IQ

Your magazine makes my day (and my nights!) You are a gleam of happiness in a dark universe of repression and censorship. Please ignore those who criticize you with their fantasy moralizing. You are honest about human passions and serve a growing need in our embattled society.

As soon as I get a CD-Rom drive for my computer, I will be ordering CDs.

ROBERT D.

THE TRULY WEIRD.

Dear IQ

Please remove this name from your mailing list. My husband and his penis have moved away and we don't need this kind of stimulation any more.

BARBARA L., MADISON, N.J.

We welcome your comments, critiques and curiosity. Write us at Interactive Quarterly Letters, 551 Valley Road, Montclair, NJ 07043. E-Mail us at IQMag@AOL.com, or fax us at (201) 783-3686. Cyberotic comics

Look for some of the sexiest mainstream comics to arrive on a CD-Rom drive near you. Think Multimedia Entertainment has signed a deal with many of the studios that make up Image Comics, including Wildstorm Productions, Extreme Studio and Highbrow Entertainment to put some of Image's most successful characters on CD-Rom.

Image comics, a loose conglomeration made up predominantly of former Marvel Comics creators who left to own their own work, has captured over 20% of the comic marketplace in their three years in business. Artists featured in Think's software include Jim Lee, Rob Liefeld and Eric Larson.

The first of Think's software includes screen saver collections from the phenomenally successful *Gen13* comic book and *Wildstorm's Swimsuit* editions.

LSU TO EXPLODE WITH NITRO?

Soon, you will not see the LSU logo on such favorite software as *See Some Threesome*, *Texas Table Dance* and *Venus' Playhouse* (see interview elsewhere in the issue). Principals Jim Sharkey and Pat Lowery recently sold out to Nitro Productions, a venture headed by adult entertainment veterans Ira Weston and Peter Davy.

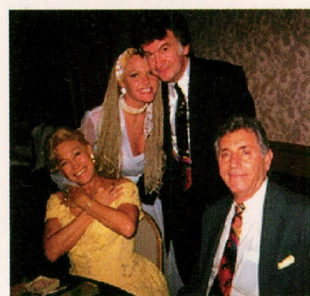

"Sharkey and Pat had to get out of the business, due to other, more lucrative commitments," Weston told *Interactive Quarterly*. "We took over for them. They are no longer in the adult CD-Rom area."

All of LSU's titles will be released through Nitro. Weston expects to start publishing new interactive titles shortly.

A title announced by LSU, *Stripper PI*, should be on the shelves now. Another title, the detective spoof *Mysteria*, should come out on CD-Rom any day now. *Mysteria* features Houston, an actress Nitro has under contract.

"She's the Nitro Girl," Weston beams.

Nitro has been taking out poster size ads of Houston in various

trade magazines, the first in many steps toward establishing the Nitro name.

"My mother named me right," Weston chuckles. "Put your money in IRA."

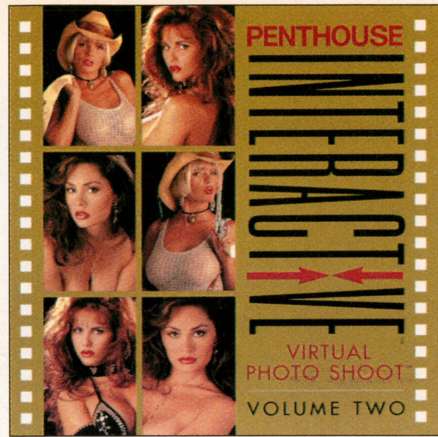

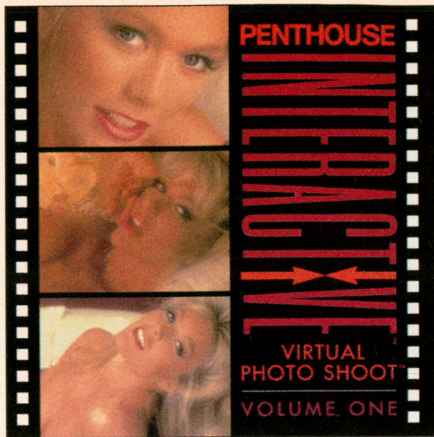

VAL'S DEBUT

Arcus celebrated the coming out party for *Virtual Valerie II* at New York's @ Cafe. Among the invited

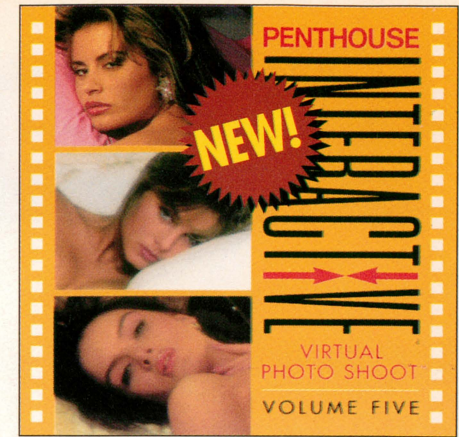

guests were a large hunk of the *Interactive Quarterly* staff. Partying with a life-size, lifelike and in fact, living Val are (L-R) Hank Bordowitz (*IQ* Editor), Ed Tsunoda (*IQ* Associate Ed), a remarkable Val look-alike, courtesy of *Penthouse*, Carl Bruno, CEO of South Pointe, Arcus' parent company, Maggie Dunphy, Arcus Marketing Director, *IQ* Associate Publisher Richard Murphy, and *IQ* Business Manager Jameson Allen.

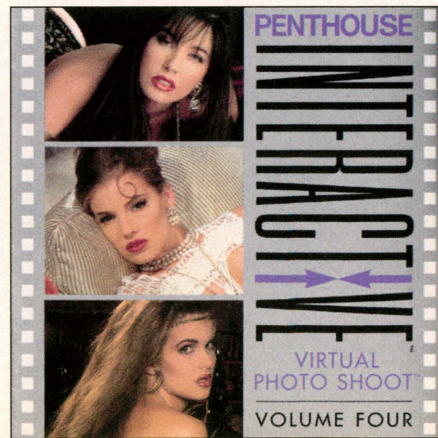

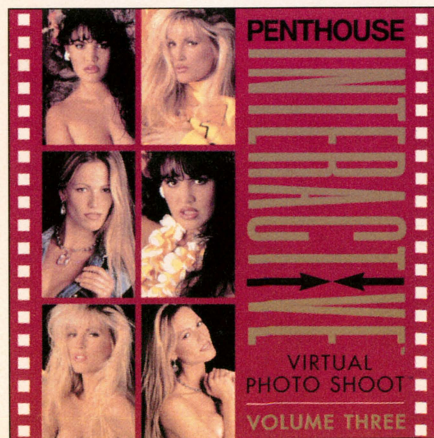

Penthouse Virtual Photo Shoot, THE ADULT MARKET'S #1 SELLING LINE OF CD-ROM SOFTWARE PACKAGES, delivers what male computer enthusiasts really want in interactive entertainment—pioneering technology with non-stop excitement, mind-blowing graphics and an affordable price. And, this unique line of software cuts through other software clutter with unique features such as:

Multimedia Circus

Pixis is trying to keep their new title, *Diva X*, shrouded in secrecy. So much so that Mark Media, president, gets up to close his office door before telling *Interactive Quarterly* the story. Why the secrecy, Mark?

"*Diva X* is incredible", Media beams, "you have so much power to do what you want."

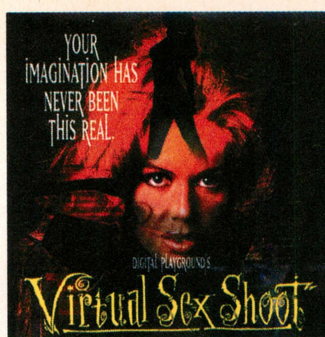

Each *Diva* CD focuses on one incredibly beautiful woman, leaving more memory for enhancing the interactivity of, in this case, Ariana. She offers you full control of every aspect of the hard-core action. *Diva X* includes TFUI v2.0, the most advanced Pixis interface ever. In addition to the anatomical tools included with the highly successful *Space Sirens 2*, you also get to use your tongue, various toys, self-stimulation and an icon-based human voice simulator.

The most exciting function on the *Diva* series is the X-Director. "You've heard other companies hype their 'make-your-own movie' feature", but Media insists "this is the real thing." The X-director

includes multiple camera angles, zoom and, "something else...I can't tell you...it's a secret," that makes this a true video creator."

The *Diva* series will include several CD's. In addition to Ariana, future Divas will include the girl next door, a secretary, and other women that might realistically wander into your world. "We are making the technology transparent. This is about experiencing a real encounter with a real woman," says Media.

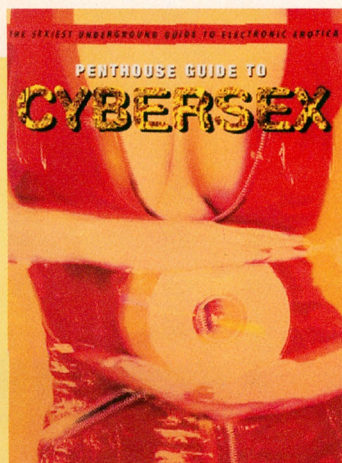

THE REAL THING, maybe

Ever sit watching an adult video and think you could do better? Now you have the chance. *Virtual Sex Shoot*, from Digital Playgrounds, gives you the opportunity to direct a two camera shoot, switching between cameras in real time. One of the first CD-Roms to work in QuickTime VR, the program allows you to create your own erotic movie from the supply of clips. Once you've done that, you can save it to a floppy. A technological marvel, the program also uses HQDV Full Screen Video, and 360 degree Virtual Vision.

GOING PRIVATE

After releasing the highly touted *Private Prison* through New Machine Publishing, Swedish cyberotica specialists Private decided to go it alone. They opened up an American distribution arm with the Odyssey group called Private USA. The company's first release, *Private Pleasure Park* should be out now. Private is one of Europe's largest publishers of adult magazines and videos.

PENTHOUSE ON CYBERSEX

Give Bob Guccione credit, 'cause credit is due — Penthouse, and their parent company General Media, blows the doors off nearly everyone when it comes to electronic publishing, leaving nearly every avenue of the publishing industry to eat their cyberdust. Ironically, one of the company's most recent salvos in this arena comes to us on paper. The *Penthouse Guide To Cybersex* largely fills in the

blanks left by Net Sex. Far broader in scope, The Guide takes readers from the Net to the Web to those everlovin' seedy Roms. The content leans toward the technical, with talk of PPPs and Slip Lines (and no, they are not obscure sexual techniques), but the appendices offer author Nancy Tamosaitis' favorite bulletin boards, web sites and CD-Roms in this exhaustive review of computer based turn ons.

More Pussy Galore

On the digizine front, the second issue of *Trouble and Attitude* should be on the stands as you read this. Besides a multimedia exploration of stripping, a piece on cigar smoking among young men and women, and on-the-street interviews with women to find out what's on their minds, the magazine explores the myths and movies about Ian Fleming's super secret agent James Bond. Of course, no piece on the Bond flicks would be complete without the Bond girls, and the folks at T&A promise pictures of over 100 of 'em.

ON-LINE WITH TORI WELLS

Those of you who have a secret yen to actually chat with Tori Wells or Christy Canyon now have to opportunity to do so — on-line at least. Many

on-line services have taken to cur-tailing access to adult areas. The recent kiddy-porn scandals have

caused the big chill to settle around on-line cyberotica. Digital Video Productions, however, has boldly stepped in to the fray. Their new on-line service, Adult America, provides nearly anything the adult fan craves. You

get previews of adult magazines, video previews, even virtual tours of gentlemen's clubs all over the country. These tours offer the option of picking a favorite dancer and setting an e-mail date if you plan to visit that location in person. Then, of course, you can look at pictures from some of the country's most famous glamour photographers, and even download film clips. The service also offers savings on subscriptions and on-line shopping. The cost is \$1.95 an hour and those with web browsers can URL up with a sample of the service at www.adultamerican.com.

A SHOW IS BORN

The adult multimedia industry is no longer welcome at Comdex, the big annual convention where computer companies demonstrate wares and spin vaporware fantasies. At last year's Comdex, the adult industry got too rambunctious for the show's poobahs, who 'disinvited' them from any further Comdex gatherings. As one of the main poobahs eloquently put it, "If they don't like it, let 'em get their own show." They really didn't think anyone would do it.

Well, someone did. Forty or so adult oriented companies will show their stuff at Aduldex. The upstart show runs at the Sahara Hotel concurrently with the main show, but with later hours.

"We went to Comdex for years," Says Fay Sharp, the head of Trade Show Productions. Her company primarily made Aduldex happen. "We did not call overdue attention to our product. We abided by the guidelines faxed to us before the show. They were fair and pretty much what we had always done. We thought it was going to

Fay Sharp, President of Trade Show Productions with Mark Brown, publisher of IQ magazine

be fun. However, the Comdex people were overwhelmed. They'd never had so many people with adult software. Not all of the exhibitors used good taste. Comdex didn't know how to handle the adult sector."

Last year, the people at Comdex did not anticipate the growth of the adult industry. This year, they underestimated the adult sector's tenacity. Erotica has driven communications technology since the invention of the printing press. It fueled the growth of VCRs. It aids the sales of CD-Rom drives. But as much as Aduldex dealt with the adult aspects of software, the software aspect looms large in the scheme of Aduldex. All the computer honchos attend Comdex. Those interested in Aduldex get a computer show.

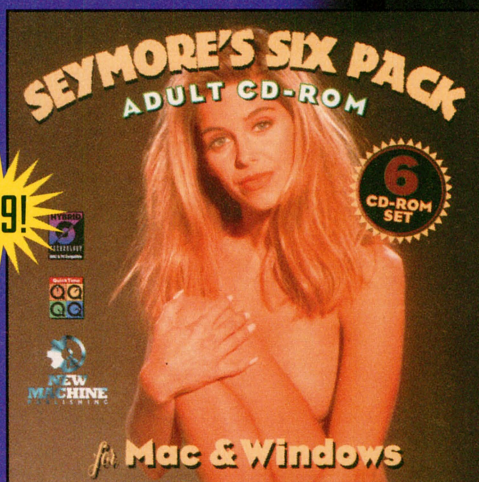

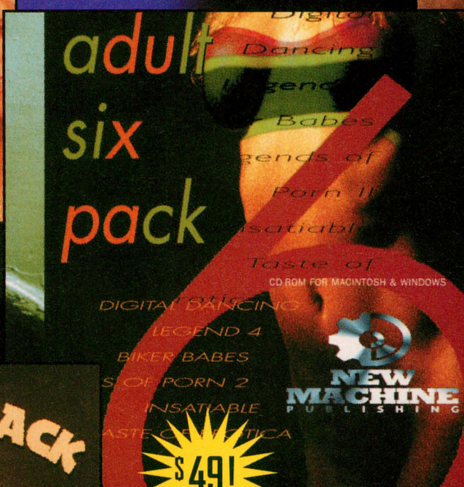

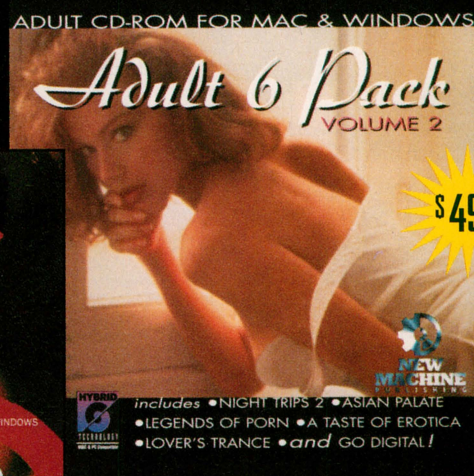

"We allow the producers to show their technology to the press," says Sharp. "This is not a smut show. This is a computer event. By allowing the press to see these technological advances, we hope to improve people's feelings about adult multimedia. There has to be an education process. Computer people expect performance. We intend to give them that performance."

NEW MACHINE PUBLISHING

proudly presents

THE *Sex* PACKS!

Four different six packs of the steamiest, sexiest, most erotic titles available!

The Platinum Pack

This sexy compilation features 3 titles from the master of erotica, Andrew Blake. House of Dreams, Secrets, Legends of Porn 2, Night Trips, A Taste of Erotica, and Go Digital Interactive.

BILL THE GATES KEEPER?

The computer industry likes their image as a family business. Cyberotica apparently does not fit that paradigm. When multimedia developer, Dynsys Technologies requested permission to develop an erotic tutorial for *Windows™ 95*, Microsoft decided not to let them start it up. The legal department of the Washington based computer software behemoth rescinded permission to use Microsoft's intellectual property.

Claiming that Microsoft was not in the censoring business, corporate attorney Cory Van Arsdale denied Dynsys Technologies an intellectual license for what was to be called the *Erotic Windows™ 95 Tutorial* because a XXX rated tutorial was not in line with Microsoft corporate goals.

The sexy tutorial is being marketed and distributed by New Machine Publishing. The program will use a beautiful instructor to teach eight fully interactive lessons. Featuring an on-line 'personal guide,' she will instruct the learner through the initial learning curve in ways far more entertaining than other tutorials.

"We feel that an erotic tutorial to *Windows™ 95* can actually be a better way to learn to use this important new operating system," comments Robert Neason, President of New Machine Publishing, who plans to release the retitled *Sin95*, a XXX tutorial that does not use any of Microsoft's intellectual assets. "Rather than slaving through a dry, boring tutorial, we give end users 'rewards' for accomplishing key tasks. New Machine Publishing is devoted to high quality technology and interactive concepts. Our tutorial will be highly interactive.. and with our erotic stars spicing it up, sales should go through the roof."

SEX

SAMURAI

CDS & ROOMS

JAPANESE CULTURE HAS MORES ALL ITS OWN, very different from things to which we *gaijin* give credence. For example, Japan recently achieved a watershed in freedom of expression. With the publication of a book of nude photographs called *Water Fruit*, Japanese adult entertainment audiences got something American adult consumers have long taken for granted: pubic hair. Up to that point, an enduring law forbade the publication of uncensored genitalia or the depiction of pubic hair. Japanese erotic publishers covered pubic hair (imagine a *Playboy* centerfold with panties), fuzzed it or scratched it out. However, when no one took any legal action against *Water Fruit's* publisher, distributor or photographer, the floodgates opened.

**JAPANESE CULTURE
IS DIFFERENT.
SO IS THEIR CYBEROTICA.**

By Lea Hernandez

Samurai Pervert Interactive!

Scenes from
Japanese
cyberotica:
No hair here.

A few other publishers, encouraged by the *Water Fruit* breakthrough, published more 'hair nudes,' as the Japanese press calls them. Still nothing happened. Within three months, the law was not merely bent but completely broken. The average "salaryman" (what we would call a working Joe) could find hair nudes in mainstream magazines and newspapers. Favorite subjects included a lesser known 'idol singer' (an up and coming young Japanese performer), bare from at least the waist down. Even *Comic Morning*, a magazine that sells 3 million copies an issue, publishes cartoon versions of 'hair nudes.' Now, Japanese CD-Rom's have entered the arena, with A6's recently released *Asian Paradise*, one of the few 'hair nude videos' available on either side of the Pacific.

It might seem strange that a country and a culture known for sex-and-violence-charged pop entertainment would just now get around to relaxing these standards. However, Japanese censorship laws proved as obscure and rigid as a samurai's code of honor. Japanese laws do not seem to inhibit creativity. The

best Japanese adult CD-Roms demonstrate where Japanese media got its mythic 'anything goes' reputation. George Izumi, general manager of A6, among the few importers of Japanese CD-Roms, described the reaction to Japanese CD-Roms a recent MacWorld Exposition as 'a near riot.' Americans fell hard for Japanese style erotica. However, A6 quickly learned that a lot of subject matter was not going to fly in the U.S. Fictionalized schoolgirl sex and rape added

"THE WOMAN MUST DEMURELY RESIST. THE

a hard and violent edge that does not cut it in America. Falling back, A6 whittled 200-300 titles down to a selection of under a dozen.

Beyond the subject matter, like any import, Japanese CD-Roms titles tend to be more pricey than their American counterparts. Translation and legalities, such as US statutes requiring proof of age statements for all models in erotic material, add to the cost of imported Japanese CD-Roms. They also sell for more in their home market: \$50 to \$100 in Japan as opposed to \$15 to \$50 in the US. Since adult material occupies a larger part of mainstream culture in Japan, CD-Rom makers can spend more on higher production values. Import tariffs from Japan raise the US prices even farther. The Japanese manufacturers rightly see adult material as another lucrative export.

However, the law in question banned pubic hair in both photography and art. This led to mosaic blurring of the genitalia in imported Japanese CDs. These laws only referred to the genitalia of adults, though. Shaving adult women to remove the pubic hair would not do the trick. Genitalia had to come by this hairless state naturally. So it became okay in Japan to use young models or depict nude, underage girls in comics. This points to a major cultural difference: the age taboo, at least in terms of images and representation, seems less important in Japan than the actual exploitation of underage girls. The laws regarding pubic hair combined with these Japanese attitudes spawned a sub-genre known as 'loli-kon' (a contraction meaning 'Lolita complex'). Even with the currently more relaxed standards for depiction of adults, 'loli-kon' seems entrenched in Japanese popular culture. Not that the Japanese really approve of 'loli-kon.' Being legal does not make it socially acceptable.

"You don't find this stuff if you're not really looking for it," Torne Smith says of 'loli-kon.' His company, Studio Proteus packages erotic Japanese comics and others for American audiences. "You have to go to a porno book store to find it, and the bondage sections are much larger. If you're not used to looking at naked Japanese women, you can be fooled. They're built differently. I know many 25 year old Japanese women who look like they're in their early teens.

"Some people blame the law against pubic hair for making 'loli-kon' permissible," he adds. "Who would have thought, when they made the law, that people would sexualize underage girls? Publishers exploited this loophole. With the rise of 'hair nudes,' I'll bet 'loli-kon' really fades away. It's starting to happen already."

Many Japanese regard their country's reputation as a den of iniquity as a fabrication of the American media. Reporters not familiar with Japanese culture reported seeing salarymen

reading sex comics on trains. In reality the salarymen are often reading a mainstream comic that happened to have sex in it. Good form demands that the salaryman enjoy truly extreme material in the privacy of his home.

Smith deflates other myths of Japanese erotica. He says depictions of sex perceived by Westerners as non-consensual represent the sexes in Japan playing out their culturally expected roles. The woman must demurely resist. The man must forcefully insist. In the US, this would lead to a sexual harassment charge.

The truly violent material comprises a very small portion of all erotic material available. The Japanese can not find it as readily as Americans might believe, either. They do not sell these items on every street corner. According to a recent article in *The New York Times*, "The police occasionally report crimes that were influenced by comics and cartoons... But the overall crime rate is extremely low."

"Erotic material is easier to get in Japan, and yet their violent rape incidence is far less than America's," says Smith. "Which would you rather have, pictures, or the actuality?"

"Japan is a very repressed society," adds Samuel Liebowitz, director of marketing for Software Sculptors, a distributor of Japanese animation — called 'anime' — software including a film transfer CD version of the erotic animation *La Blue Girl*. "There are a lot of taboos, a lot of social mores you have to abide by. That has to come out in other ways. The violent stuff is a release valve."

Yet the Japanese reputation for lurid erotica gives Japanese titles an appeal

"I know many 25 year old Japanese women who look like they're in their early teens."

—Torne Smith

MAN MUST FORCEFULLY INSIST."

do not have the playability or appeal for American companies to bother acquiring, translating and re-coding them. Beyond this, while the Japanese publishers may intend characters to look adult or be adult, many appear under-

beyond the exotic looks of their models. The A6 CD-Roms foundered on store shelves until Virgin Megastores labeled them 'imported.' Then they flew out the doors. Their reputation as being racier than their American counterparts now works for them.

A6 employed similarly canny marketing by putting a positive spin on the most exasperating aspect of Japanese erotica, digitized genitalia. While A6 mostly distributes uncensored versions of their interactive titles for the American market, its *Superstars of Japanese Porn 2* features this pre-'hair nude' restriction. Their catalog euphemistically describes the self-censoring as "Mosaic Blurring Technology to enhance eroticism." But it leaves many eager players and viewers howling in frustration.

Japan turns out spiffily reciprocal CD-Roms, like *Tokyo Nightlife*, which treats the player to point-of-view scenery while his winsome neighbor has her way with him. As more American titles add humor and storylines as well as ever-popular sci-fi trappings, they come closer to Japan's groundbreaking animated adult computer games. Rapture recently adapted strip trivia, a popular Japanese game form. In other games, the player might take the role of robot pilot, detective or knight.

With hundreds of animated games available in Japan, why haven't more made it to the U.S.? Even though New Machine released the notorious horror-sex title *Urutskidoji*, American audiences simply find most subject matter in the Japanese adult computer games too extreme. Also the majority of Japanese games, despite the effort and production values,

age to occidental eyes. Court decisions in America might say that a cartoon character has no age. However, American packagers of Japanese animation and Manga (Japanese comics) frequently change 'ages' of randier characters to avoid legal hassles. America's legitimate repulsion at child exploitation puts 'loli-kon' out of the picture in the States.

Despite the fact that most animated Japanese games never get viewed by American audiences, they influence other popular Japanese cultural imports. Manga and anime clearly find their way into many American interactive titles. The cover girl of *Space Sirens 2: Megababes from Ajia* wears makeup that gives her eyes an exotic tilt. She poses with a large, gun-toting robot. The pair resemble nothing so much as a visual cliché of manga come to life: babe and 'bot, Beauty and the Beast.

The success of imported Japanese titles has affected the American market in other ways, as well. George Izumi notes with pride that western CD-Rom manufacturers "have seen (Asian erotica) done well." Many American publishers now include more Asian women in their titles. American manufacturers also release more titles devoted solely to Asian women. These non-imported titles feature Asian models hired and photographed in the U.S. While still exotic, these images merely filter the Far East through American sensibilities. The effect comes across as both jarring and charming, like the heavily accented English of the sexy woman in *Tokyo Nightlife* who smiles, "My name is Mashino. I am your new neighbor." **IQ**

Jacqui gets wet

the future is the CRYSTAL

Some CDs have let you look at pictures. Some let you play games. Some offer a new medium for movies. MacDaddy Entertainment's inventive, smartly designed package *Crystal Fantasy* combines beautifully-produced video segments with still photo catalogs and interactive features.

The opening screen presents you with a slowly revolving six-sided "Crystal of Lust." Each facet features a photo of one of the six beautiful MacDaddy Girls. Click on the model's photo and the scene dissolves into a "glamour" video (two per

model) directed by Ivan Nagy and photographed by *Playboy* and *Penthouse* photographer Ken Marcus. All the videos are polished, professional, and fun, though the accompanying soundtracks can become a little repetitious.

As the videos play, the user has the option to click on an image icon which will

The "Talk to Me" and "Play with Me" segments offer four or five canned responses per model and perform logically if you follow the questions in sequence. The video segments feature some incredibly beautiful women telling their stories in a teasing, playful tone. Pay attention! Let them distract you and you might find yourself booted from the game.

The short "Making of" segment, the most fun and interesting of the five segments available for each model, allows a glimmer of personality to shine through. I particularly enjoyed listening to the oriental beauty Shayna speak with an Australian accent. There is something liberating about watching black-and-white footage of models writhing on a bed while the director is in the background saying, "Okay, good, now slide over that way." Kudos to Nagy and Marcus for producing one of the finest CDs of the year and permitting a peek behind the scenes.

—JEFF LANG

store the shot in a private still portfolio which can be saved and edited for future viewing. The viewer can "zoom in," expanding the video field to nearly full screen. The playback slows down to a crawl on a 386 machine, so a 486 or better is definitely recommended.

The spectacular still library (30-40 shots per model), has very polished and professional photography, equal to or better than anything you'll see in *Playboy*. The scrolling mechanism sometimes has trouble keeping up with voracious speed clicking.

Far left: Selecting "random" from the options menu makes *Sirens 2* a different game every time you play.

Left: TFUI (Touch-Feel-User-Interface) goes full screen

IQ Hot Tip: Xia loves a back rub

This is a revolutionary CD-Rom. Few titles feature full screen video, less are fully interactive games. *Space Sirens 2: MegaBabes from Ajia* is truly the best of both worlds.

Pulled in by a tractor beam

way have failed to satisfy her. Needless to say, you do not want to hang from the rafters. While resembling previous Pixis programs, there are awesome improvements in the game play. The TFUI interface has undergone an overhaul. Now

there's a stop button if you get too close to losing. You click on the actual video image to create the action instead of a 3-D model off to the side. Pixis keeps the TFUI out of your way while you are

and get satisfaction from a random moves. This keeps the game play fresh through multiple plays. You get a variety of possible roads to victory.

And you do want to win. In *Space Sirens*, if you failed to please the sirens, they enslaved you. The Megababes from Ajia are more serious. If you do not satisfy them, they whip out some sort of plasma rifle and kill you. The gaming aspect of this title keeps you on your toes. If you play in random generation mode and allow yourself only one "life," there is the promise of additional game play.

The disk also includes a blooper reel, a hilarious behind the scenes look at the making of *Space Sirens 2*. It shows that the girls aren't the ice-bergs they portray.

The seamless blend of full-motion video, awesome graphics and true game play put this title in a class of its own. Nominated for best CD for 1995. (See AMEE Awards story elsewhere in this issue.)—**ED TSUNODA**

INTIMATE POSSIBILITIES

VENUS INTERACTIVE

Interactive

Windows

Full nudity

Complex, well-structured
interactive game

IMAGINE THE POSSIBILITIES

We'll call you Bill. Bill, you have an enviable problem. You are a guest at a friend's beach house along with four very attractive ladies — Molly, Cindy, Darcie, and Julie. You believe some of them — or all of them — have developed an interest in you. Your mission, if you decide to play *Intimate Possibilities*: figure out which ones have the hots for you and then get as cozy as possible. While not *Mission: Impossible*, will not be as easy as it sounds.

Intimate Possibilities plays roughly like the CD-ROM equivalent of a "Choose Your Own Adventure" book. All events are shown from the player's (or "Bill's") point of view, and, at intervals, "Bill" has to decide whether to, for example, go play tennis with Darcie or go boating with Julie. There are dozens of juncture points where the player, using the impressively simple interface, is given a set of options which can be viewed by running the pointer over a set of two or three responses. With one

mouse and spin her around. It is not exactly clear what use this has, but it is cool nonetheless. Being able to move the virtual women is an aspect of adult CD-Roms that has been severely neglected and it's nice to see someone explore that direction.

Virtual Sex Shoot is one of the most attractive adult titles

available. Even after having played the game, you will want to go back and walk around the world some more. You should constantly find more things to impress you. The adult aspect of this title is very good, at least on a par with what is available these days. The virtual world that surrounds it is so outstanding they could have left the adult video out altogether and still had an incredible title.

—ED TSUNODA

Interactive
Hybrid
Couples, penetration, X-rated
Eerily beautiful 3D world,
wonderful women

or two of the ladies, fortune favors the bold. With others, it seems that a lighter touch is necessary. That's the fun of the game — the player has to "read" some subtle cues and respond appropriately.

Unfortunately, if you make a bad decision (I think I killed Bill once) and want to try something else, you don't have the option to alter your previous choice. Just like in life, in *Intimate Possibilities*, decisions are irrevocable. The instructions say there's 31 different "intimate possibilities," but I didn't discover more than half-a-dozen after playing through four times.

Only one or two more negative points: the program gobbles up over 7 MB of space on your hard drive, and you need a 486/25 Mhz (or faster), 8 MB of RAM, an accelerated local bus 16-bit (High Color) or 24 bit color graphics card, and a minimum of 256 colors displayed. That's a lot of hardware just to be repeatedly rejected all weekend.

Last (and this is a personal thing), all four of the women are bodaciously, even cartoonishly, buxom. Nothing wrong with that necessarily, but, hey — variety is the spice of life. —JEFF LANG

VISIONS OF EROTICA VOL. 1: EARLY LEGENDS OF THE ADULT CINEMA

DIGITAL PLAYGROUND

★★★

I don't know how many doctoral theses are written yearly on pornography. For all of you scholars out there, here's something tax deductible — a nostalgic view of the days when legends strode the silver screen. Well, maybe some of the 30-odd performers featured in this interactive slide show program are not quite legendary in status, but it does have John C. Holmes, Seka, Misty Dawn, Ron Jeremy, Candy Samples and Kitten Natividad. And maybe none of the 26 films featured are on a par with *Deep Throat* or *Debbie Does Dallas* in the name-recognition category. And maybe the breathy female narration, which ranges from documentary seriousness to phone sex raunchiness occasionally without changing gears, may get on your nerves after a while. No one said research was easy.

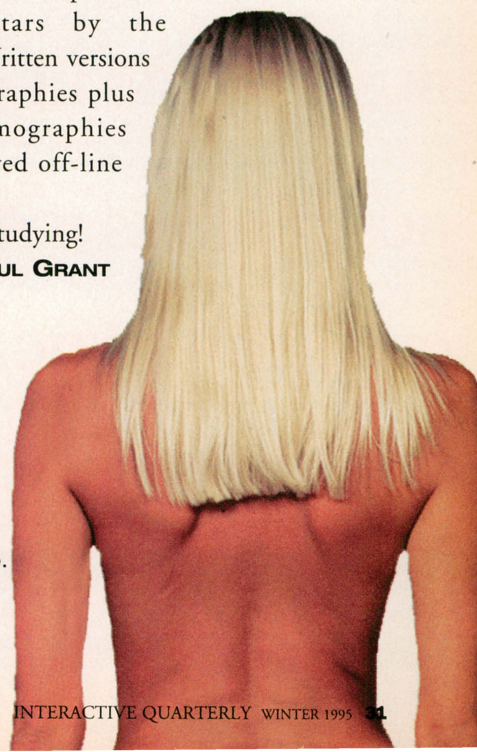

The upside is that the quality of the 1200+ stills is excellent and the subject matter is explicit and full of variety. The performers are generally quite enthusiastic and attractive. And you can turn off the narration if you wish.

The slideshow can be set up in three ways: Play All (which leaves your hands free), Play One automatically, or Play One but enlarge the image. The last requires that you frame advance, but also enables you to (a) back up, (b) zoom in on selected frames, and (c) access the star biography sections provided for selected stars by the narrator. Written versions of the biographies plus limited filmographies can be viewed off-line as well.

Now get studying!

Capitalizing on America's fascination with tawdry tabloid happenings and its sexual curiosity, this CD-Rom reunites two recent headliners: John Wayne Bobbitt and his penis.

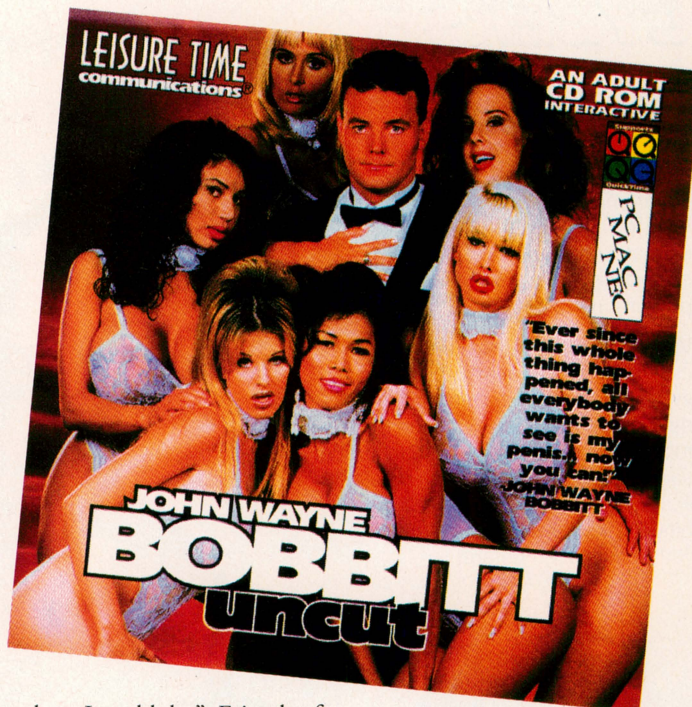

This is the one CD-Rom that you have to have. It's the one that you, your friends and the world have probably heard about. Let's cut to the chase — any adult entertainment CD-Rom with John Wayne Bobbitt in the cast rates your immediate attention. It's action packed and the introduction is so funny that it is sure to leave you in stitches. This CD-Rom is a cut above any I've seen.

You may recall the Bobbitt story. Every man flinched at

According to the news media, Lorena claims that Bobbitt raped, beat and abused her and thus caused her to get snippy. The docudrama-esque re-creation takes a different angle, requiring disclaimers that mark it as a work of fiction.

Taking it from the top, it seems that Bobbitt *before* was a selfish lover. He would roll off and roll over when he finished his business, leaving Lorena frustrated and less than satisfied. Her anger came to a head and she cut straight to the root of the problem.

Bobbitt narrates the CD Rom. He recalls the good times before things went badly between Lorena and

least I could do." Friends of the couple, Bobbitt's surgeon, the policemen, and Nurse Nancy, who was responsible for such tender loving care whilst Bobbitt was in the hospital, also cut to the chase.

After the incident with the knife, Bobbitt turns into a super-celebrity. "I was on every TV and talk show," he recalls, "I was meeting some really important people, but everywhere I went turned into an orgy." Poor baby.

He hangs out on the yacht of a famous smut publisher. He moves to Las Vegas and dates a stripper he met on the job (hers, not his). That didn't work out, he says, adding "you may recall what happened to that from the news." If memory serves, his new fiancée nipped the relationship in the bud. He

continued on page 92

bobbing BOBBITT

the tale of Lorena Bobbitt, who severed her husband's penis. Every woman smiled knowingly. If, however, you are unfamiliar with the yarn, Leisure Time Entertainment re-creates the events.

himself. He would read to her in the park. She would steal money from her employers. Proving that he is a serious method actor, he re-enacts that portentous night of the long knife (although they mercifully cut away seconds before the fateful slice). It makes you wonder what was left on the cutting room floor.

The actress playing Lorena has a great line: "I showed the policemen where I had thrown the penis. It was the

THE QUEEN OF CYBERSEX IS BACK!

From the mind of **MIKE SAENZ**, creator of Virtual Valerie™ — the world's first adult CD-ROM — Virtual Valerie 2 is an erotically-charged, intimately detailed, and highly stimulating simulation of incredible proportions!

Virtual Valerie 2 is the ultimate in cyberotica and the embodiment of every red-blooded technophile's deepest desires! Sophisticated 3D modeling, tantalizing animation, erotic sound effects, and a sizzling music score combine to create a mind-blowing *sextravaganza* like nothing you've ever seen before!

THE 1995 AMEE AWARDS NOMINEES

ADULT MULTIMEDIA EXCELLENCE IN ENTERTAINMENT AWARDS

PRESENTED BY IQ MAGAZINE

Erotic entertainment for the computer has gathered momentum in a big way. Indeed, cyberotica has come of age.

Interactive Quarterly (and other magazines) dedicates hundreds of pages to it. In November, there will be an entire trade show featuring nothing but adult multi-media. It's even been covered positively in *The New York Times*.

As with any medium or movement, there are leaders and followers. In adult interactive entertainment, certain programs display a vision that pushes the technology of everything that follows just a little bit more. This was true with the printing press — Gutenberg's Bible may be the collectible that people talk about, but some of the erotica that found its way into movable type is just as valuable.

Who can count the number of VCRs sold in the late 70s that came home with copies of *Deep Throat*? Who can estimate how much of the geometric growth of the Web comes from people hunting down Cyberotica? Who knows how many of the millions of CD-Rom drives sold this year will spin a copy of *The Interactive Adventures of Seymore Butts II*?

In any endeavor, certain performers display talent others can only dream of. Directors push the boundaries of the medium. Programmers do things that just astound their peers as well the consumers for whom they create. This way the medium moves forward, and so does the business that supports it.

Like so many media and multimedia businesses, cyberotica is a blend of art and commerce, personal vision, what people see and what sells. Once you have created something new, people expect you to do that every time out. Some people shoot their load once, but if that once breaks new ground, that's important, too.

The time has come to honor these achievers. With the help of a panel of experts, the editors of *Interactive Quarterly* have nominated the best of the best in all aspects of adult multimedia. From picture discs to sexy games, from film transfers to the height of interactivity, we proudly present the following nominees for the first annual *Adult Multimedia Excellence in Entertainment* (AMEE) Awards.

The envelope please. . .

And the nominees are:

BEST PREMIERE CD

- **CYBERSTRIP BLACKJACK**
RAPTURE INTERACTIVE
- **INTIMATE POSSIBILITIES**

how to **succeed** in **Adult Multimedia** by **really** trying.

Then I had to

Around Nelson Chu's 12th birthday, the US government gave him a computer. It was part of a program for gifted children. They set him up with a Texas Instruments T-1000. The machine had 32K of memory and was little better than a toy even then. They thought all young Nelson would do was draw with the rudimentary paint program. Maybe he would do some simple programming in BASIC. Perhaps he could do his homework on the word processor. At worst, they thought, he might use it to cheat on his math homework. That was their first mistake.

"Hacking, phone freaking, pirating a lot of encrypted software," is how Chu admits how he had fun with the machine the government hoped would help him achieve more as a student.

"Then I had to quit," he says. "The FBI called me one day."

quit. The FBI called me one day.

By Hank Bordowitz

"Got a knock on the door for hacking some bad stuff," guffaws Tom Gotuzzo, his partner in Rapture Interactive.

"That was when I was a lot younger," says Nelson, who is pushing 2X. "Until recently, I hadn't touched a computer in ten years. The hacker scene was pretty lightweight back then. They didn't know what was going on. Most of the time they just slapped us on the wrist and took away the computer. I had to give it up.

"A lot of hackers grew up into the software industry we have now. Not even hackers, just punks. They used to spray paint on walls and do graffiti. That's how they started their design career. Some went to Atari things like that. A lot of my friends didn't do well in high school and college, but now they're getting pretty good dollars as designers."

Not too many have enjoyed the kind of success as the partners

in Rapture Interactive. Started just a year ago, Gotuzzo and Chu reckon that by their first anniversary Rapture will have over a dozen titles on the market. They accomplished this through one of the best yin and yang pairings in the upstart adult interactive industry.

"I do the rendering and programming," Chu explains in his measured, reserved manner. "I do all the computer stuff except for the 3-D modeling. Programming, video engineering, sound engineering, art direction, project direction, everything from beginning to end in a project. I'm the only programmer there. We don't have a big production team. We don't *need* a big production team."

"Nelson is a very accomplished artist," says the effusive Gotuzzo in his loud but resonant voice. "Even when he was a

"Lean and mean, baby."

—RAPTURE PARTNER TOMMY GOTUZZO

little kid, when we were drawing stick figures, he could draw in proportion, realistic stuff. Nelson's an artist first, before he got into computers. I think that's what helps with the type of graphics that he does."

They are a study in contrasts. Gotuzzo is yin to Chu's yang. Where Chu tends to be almost taciturn, Gotuzzo blusters like wind in December. Where Gotuzzo likes nothing better than talking up his product and working a crowd, Chu prefers sitting quietly behind his battery of computers. Chu grew up in the urban environs of San Francisco's China Town. Gotuzzo is a life long beach bum.

"I grew at Newport Beach, surfed and had fun," Gotuzzo adds. "Played on the beach, had a good time and got my degree in finance and marketing."

Rapture makes interactive games, but they take a new jack approach to adult media. For one thing, Rapture programs have play value. You can actually go a

few rounds with *Cyberstrip Poker* and *Black Jack*, as opposed to so much cyberotica where the game represents just a brief obstacle on your way to the clip. Their strategy is to keep everything completely R-rated. The clips in their recent *Midnight Fantasy* would not look too out of place on the sexy European version of MTV.

The company only has seven employees. Gotuzzo's yin leads four in sales and marketing. Chu's yang heads three on the creative side.

"Lean and mean, baby," Gotuzzo bellows. "Nelson is slamming out this stuff. He won't sleep for a couple of days to get games going. He likes to stay up and just hammer things out. When everyone's in production, they're in serious production. Nelson is slamming out games in three

months or less. It's pretty serious."

"There's no office," Chu adds, "just one huge room with a blue screen stage. We get our projects done faster because there's no bureaucracy between concept, marketing and production."

"It's pretty wild back there," Gotuzzo agrees.

Chu overcame his aversion to computers several years ago, when he started to work as a graphic designer. Over the last decade, nearly

everything in this field, from magazine and ad layout to illustration has moved from the province of pens, pencils and paper to the sphere of sil-

icon and software. Chu started doing still graphics, but found that boring and moved into video. He met Gotuzzo, who was looking to jump into CD-Roms.

"I wanted to get into the business," Gotuzzo explains. "I put the word out for somebody who could produce inter-

You'll have to play better than this to see more than her hand!

both *Poker* and *Blackjack* that fits on two floppies," Gotuzzo explains. "You only play one girl and you don't see the full motion video, but it's still a cute game."

Other imminent Rapture titles include a sports trivia game and a sex trivia game. "We have *Sexy Sports Trivia* coming out," Gotuzzo says. "This is sports trivia with a

sexy twist. There are commentators that talk about how well the players are doing, how well the girl has stripped. You have the commentators throughout the entire game, which breaks things up and makes it nice. You get to pick categories. According to which category you pick, the girl is dressed up in that category. Our sex trivia is called *Sex Trivia 101*. We have geeks that kind of tell you how well you're playing. It's set on a college campus, at a sorority house. You're invited to study with three girls at the same time, only the girls don't know it."

They just came out with one of their most ambitious games to date: *Hollywood Body Double*, described elsewhere in this issue as "A great game, that just happens to feature a bevy of lovely ladies getting down and dirty."

Chu and Gotuzzo's game plan amounts to applying the Hugh Hefner approach to cyberotica. With smarts and class, they hope to change the public perception to something acceptable to mainstream America.

Any mansions for sale by the beach? **IQ**

Lucky in cards and lucky in love.

active CD-Rom games. A lot of people said Nelson Chu was the guy. They said he's a madman. Nelson gave me a call. We both wanted a young, hip company that kicked ass with some hot games..."

"Not X-rated!" Chu interjects.

"It was a good synergy," Gotuzzo adds. "Nelson's not happy unless he's got two or three computers running on

his desk at the same time. I handle operations. Nelson does the package design and I handle the manufacturing plants and everything. Also sales."

Yin and yang again, Chu's acclaimed way with computer graphics, Gotuzzo's nose and knowledge of the market. People unsure whether *Cyberstrip Poker* or *Blackjack* is their game will soon have the option of trying it as shareware.

**MISSION
CONTROL**

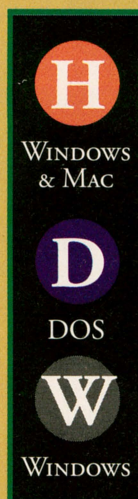

Happy Holidays from Mission Control!

Mission Control continues to offer the biggest and best selection of adult entertainment on CD-Rom.

This is a Special Edition of the Communique, designed to be your guide to the very best in quality and value on CD-Rom for the holidays. We have included more titles with bigger and better pictures to provide you with a clearer look at what we are recommending. Our descriptions of the hottest selections include more information. This helps you find software that suits your personal tastes or makes the perfect present. For the first time, we are also including VideoCD format in our complete listings. If you have upgraded to a MPEG video card you can take advantage of the crystal clear full-screen action in these titles.

The holiday season is bringing out the best in our publishers. Be sure to check out new titles like Diva X from Pixis, Nightwatch 3 from New Machine, Japan XXX from A6 and the hot new title from ROMantics, Peepshow2: The Girlie Game. Don't miss out on the incredible new interactive title from VCA, Latex Interactive. Based on the award winning adult movie, this title is generating a lot of excitement.

As always, our research staff culls only the industry's very best so that every choice in this Special Holiday Edition of the Communique is guaranteed to satisfy. Your account representative is available toll-free for information, advice and service during our expanded hours throughout the holiday season. We are improving our communications services to include fax-back, e-mail, automated voice attendant and the internet so now there are even more ways to contact us 24 hrs a day. Check out our order form for more information on using these new services. More than ever before, Mission Control is your source for adult entertainment software.

The Ratings

R Partial or full nudity. No visible penetration (Cable Version)

X Hard Core.

Adult CD Rom's can be broken down into three basic categories:

Picture Discs - Taking advantage of the vast storage capacity of CD Roms, many high resolution images can fit onto one. These discs contain their own viewing utilities, but any good viewer like VPIC works very well. Some of the best examples of Picture Discs are: Busty Babes 4, Private Photodisc #1 and Asia X.

Interactive - Means you actually 'interact' with the program by making choices that affect the outcome of the next scene. Today's Interactive titles are full-fledged games with adult themes and explicit action. The best examples of Interactive Adult CD's are: The Interactive Adventures of Seymore Butts 2, Virtual Sex Shoot, Space Sirens 2 and Crystal Fantasy.

Movie Discs - Just what it sounds like, adult movies on CD Rom. Many of these disks are the full-length movie. There are exciting new interactive interfaces that include freeze-frame blow-ups, full screen video and other ways to customize the videos to your personal tastes. Some of the best examples of Movies are: Heather Hunter, Bush Pilots and Taboo 13.

Strip Poker Professional is Now Available On CD-ROM!

CD-Rom version features hi-res Super VGA graphics using our Crystal Clear Graphics!

CD-Rom contains 24 additional opponents who can be purchased over the phone by calling a toll-free number.

Additional opponents are available for the disk version on optional Data Disks.
Shown: Sara (DD#4), Annie (DD#3) and Rebecca (DD#12).

Settle in for a sizzling evening of STRIP POKER as this unique program pits your poker skills against gorgeous opponents, each with their own unique personality and style of play. And, the more chips you win, the more they take off! Our latest enhancements to this computer classic include state of the art digitized graphics using our exclusive CGC graphics technology, simultaneous play against up to three opponents, digitized speech (Sound Blaster compatible), Save Game and more!

And now Artworx' Strip Poker Professional is available on CD-ROM, featuring awesome Hi-res graphics—800x600 screen resolution with 256 colors, and *four* captivating opponents. And, using the latest in CD-ROM technology, we are able to include an additional 24 opponents on this CD-ROM! They are available in groups of four and can be economically and conveniently ordered and immediately unlocked by placing a toll-free phone call!

**IBM
CD-ROM
\$49.95**

Requires Super VGA

New Rev B Disk Version!

We have updated the disk version of Strip Poker Professional with three brand new opponents: Janet, Sally and Carolyn, using our CGC graphics. 640x480 screen resolution. Requires Super VGA.

IBM Strip Poker Professional Rev B: \$49.95

Rev B Upgrade (Requires SPX Master Disk): \$19.00

Strip Poker Data Disks

Add more opponents to your STRIP POKER disk collection! Each DATA DISK has two new opponents to play against.

Data Disks 1-14: \$24.95 each

Game Of The Year

You'll sizzle having fun in the Sun with Sexpot Sazzy as she takes you to the beautiful beaches of Waikiki.

To order, call 800-999-7995 201-783-3600 or fax 201-783-3686

©1995 COPYRIGHT RAPTURE INTERACTIVE™ 4087-B Glencoe Ave, Marina Del Rey, CA 90292 ©1995 COPYRIGHT Viewer's Choice Special Video AKA Body Doubles FUTURE ROM ENTERTAINMENT ©1995 COPYRIGHT Original Music Michael Corn • RAPTURE and CHROMA3 are Registered Trademarks of Rapture Interactive

Thank you for calling Rapture, may I help you? Ohhh...Mr. Resnick...no...they are still in a meeting

heart, demonstrating how effective Rapture's Trade-mark Cr3 Technology can be. The blue-screening of video over computer graphics puts seamless full screen action at your command. The more times you play this game, the more detail and interactivity seem to jump into your lap. Rapture painstakingly crafted a 3D Hollywood set which provides a fantastic back drop for the video. The controls for moving around are a bit clunky, but this does not detract from either the challenge of the game, or the beauty of its stars comes as close as you can get to full screen action without upgrading to an MPEG card or seeing jerky pixels the size of quarters chug around the screen. If you want a great game that just happens to feature a bevy of lovely ladies getting down and dirty, make yourself a gift of this one.

—ED TSUNODA

Every day, in every way, interactive CDs come closer and closer to developing into full-fledged adult games. *Hollywood Body Double* takes the big plunge over that line.

Michelle and her co-stars. From your first day at the studio, you must live up to your various responsibilities without crossing the path of the evil studio head J.B.

a major ADVANCE in adult games

As close as you
can get to full
screen action
without
upgrading to
an MPEG card

This game recalls *Under a Killing Moon*, combining a big star (in this case Shelley Michelle) and a healthy dose of computer animation. *Body Double* will almost make you forget you bought the CD for your personal arousal... almost.

Your job is to direct a pay-per-view special that features ex-*Playboy* centerfold Shelley

McGreedy. This can be challenging. Prepare to lose a couple of times before you find your way around.

THE BEST OF THE BEST
VOLUME 4: DEEP TUSH
INTERACTIVE CLASSICS

This guy I know, a big shot in software, has this theory. He sez that if you cannot put in a disk and run it these days, it's a bad program. That's the first strike against *Deep Tush*. By current standards, the process of running this disk by invoking the Windows media player is pretty archaic.

Not that everything is hunky dory once you get through the three or four clicks and menus it takes to get this disk running. Far from even the three quarter screen technology the most basic programs offer these days, *Deep Tush* presents its grainy, runtime movie clips in a screen roughly the size of a trading card. The films do move well, however.

Perhaps the reason for the small pictures is the painfully plain players and production. Not ugly, just not very aesthetic. The women wear little

make-up (or anything else, save high heels). The badly lit, bare bones sets do nothing to enhance this. Not that this matters too much. The camera rarely cuts away from the close-ups of private parts.

The programs do cut to the chase. None of the niceties of how these people got to bed, just wham, bam and in your butt ma'am. If you have a serious anal sex fixation, you might find some of the thirteen cryptically titled ("DP Biff Blonde No Face") film clips in *Deep Tush* mildly amusing. Otherwise, the most attractive element of the program is the cover.

Cheap n' nasty

GETTING OFF ON OTHER PEOPLE'S FANTASIES

Poor, poor little rich girl Alexis. Night after night, she sits alone in her sumptuous, meticulously sculpted penthouse apartment, reading letters containing the sexual fantasies of strangers. They dream about hitchhikers and rock stars and strangers on a train. She shows us videos illustrating those letters. An attractive, buxom brunette

WHERE'S THE NURSE?

There isn't a lot of stripping in VCA Interactive's first feature, *Stripper Nurses*, and there doesn't appear to be many nurses, but there is a lot of very hot erotic action of several different types: straight, lesbian, two-on-one. The box copy indicates that there's a plot — something about returning to the Burton Allen Institute — but don't be mislead. This is a collection of seven well-produced, way-sexy hardcore clips.

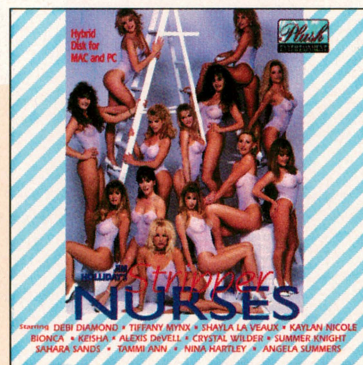

The loading procedure is simple and the interface is about as basic as you can get: click on the still you want to play and it plays.

Hit the "Hide" button and the scene disappears. Hit the "Stop" lever and either the scene or the program stops.

Stripper Nurses could be considered an interactive CD in that the user can jump to predetermined points in each clip with the aid of easy-to-understand icons (such as "Blow Job," "Stretch'n It Out," and "Spewing Jizm"). Again, pretty basic, but a clever innovation.

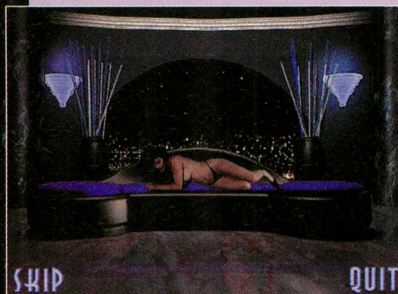

The box copy says you need a 386 to run the program; the README says you need a 486. The box is right.

Basic, no pain, no-frills fun

like Alexis could find a love of her own. Instead, she spends her nights getting off on other people's fantasies

Each segment starts with Alexis reading a letter out loud. Next comes a video illustrating the letter's theme, directed by "award-winning *Playboy* director Norry Niven." There are nine clips in all, full of soft focus, interesting lighting and jump cuts. Yes, the women are pretty in an MTV kind of way, beautiful mildly erotic performers.

In between films, Alexis shows you her breasts and writhes around a bit on the couch, and says how the last letter got her so aroused she can't control herself. *Fantasy After Dark* provides a tasteful look at the exploration of other people's. —PAUL GRANT

SELECT-A-PET II: PET OF THE YEAR STOCK PHOTO BROWSER

PENTHOUSE INTERACTIVE

★★

With *Penthouse's* popular *Interactive Virtual Photo Shoot*, you got to live the life of a *Penthouse* photographer, at least vicariously. It was a voyeur's delight, lovely Pets showing their stuff in brief film snippets. The viewer saved selected moments into a slide show. *Select-A-Pet II:*

Pets Of The Year Stock Photo Browser offers you dozens upon dozens of still shots to arrange in whatever order you want. The result may sound similar, but getting there just isn't as much fun as it sounds.

Maybe I just don't get picture discs, but with a product like *Virtual Shoot* available, a CD-Rom database seems like a waste. Even a collection of 425 high quality photos of beautiful women in advanced

stages of nakedness and poses that leave little to the imagination. The accompanying instruction booklet says the disk includes a demo of *Virtual Photo Shoot*, but damned if I could find it.

The disk does give you options for selecting hair color, body type and degree of "hotness" on the opening screen. It brings up a selection of thumbnails of poses that match your criteria. Double-clicking on any photo jumps it up to full size; an excellent zoom feature allows you to home in on areas of particular interest (using the shift key allows zooming back out). Inquisitive sorts can access information about each Pet by clicking the bar under each photo.

The program offers many choices. Pick the way it dissolves from photo to photo in your slide show. Select from seven available soundtracks for background music. Here's a clue, though: take it easy and use the preprogrammed, numbered thumbnails in the instruction booklet to get the shots that turn you on.

PRIVATE PHOTODISC #1

PRIVATE

★★★★

Some guys go for perfection. Others just can not deal with a steady diet of blonde-bimbo porn stars with perfect bodies and fake breasts. For guys like these, amateur productions, particularly European titles, have been catching on quickly. *Private Photodisc #1* features the same high-quality production as mainstream American material, but stars actresses that appeal to men who like their women a little more natural looking.

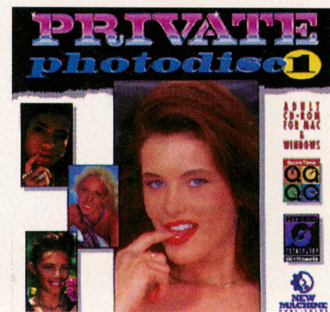

This CD contains over 500 high resolution, hard-core pictures. It does not get any more up-close and graphic than this. The women are natural looking, attractive, and brazen. There are a variety of 'interfaces' to the female anatomy and every girl on this disc displays her talents with all three.

The photos are arranged into segments, most of them involving a group of people enjoying a romp in the great

outdoors. Almost all of them consist of one woman and multiple men. The pictures of couples, whether straight or girl on girl, are fairly scattered. Though everyone seems to be genuinely enjoying themselves, the disc is short on variety.

The pictures are stored as bmp files. Though not BBS ready, they are easily viewed with the enclosed slide show program.

If what you are looking for

is sex, sex, and more sex, check out *Private Photodisc #1* and take advantage of the crystal clear, full screen graphics that this picture disc offers.

Classics.

A long last, a rousing riotous sequel to the most famous X-rated hit of all time! Fifteen years have gone by since DEEP THROAT took the movie world by storm. This all-new successor is sure to stir up the same kind of excitement! Hard to swallow? Just wait!

Sexy sensation KRISTA LANE explodes onto the screen as the wife of a headline-seeking senator who vows an all out war on pornography. "The Lipstick Commission" is packed with anti-porn activists, but during a screening of DEEP THROAT, Krista is suddenly possessed by the erotic spirit of her long-dead libertine mother.... the orgasmic oralist who was the inspiration for the original movie. You won't believe your eyes when Krista turns kinky, releasing all her inhibitions and engulfs the rest of the uptight committee in sex scene after throbbing sex scene!....and that's only the beginning.

KRISTA LANE

*A*my Rogers, a romance novelist, is searching for an inspirational location to rent in order to complete her latest novel. Her search leads to an old

Victorian mansion filled with dust and cobwebs. While cleaning she finds a mysterious looking doorway which leads to an unused attic.

Exploring the attic, she finds a diary entitled "The Personal Memoirs of Molly Mae", dated 1887.

She reads it, becomes fascinated and eventually obsessed with the characters. Her obsession leads to strange and mystical experiences and she begins to physically feel the emotions of the writer "Molly Mae". Molly Mae Jason her lover and his family; the Cromwells, magically take form and ultimately absorb

Amy into their existence which is teeming with love, adultery and intrigue.

As Amy falls in love with Jason, the viewer is compelled to discern what is fantasy and what is reality in this tender yet torrid love story.

BUSTY BABES
LION'S DEN

★★★★

Picture disk connoisseurs measure them against the *Busty Babes* CDs. With *Busty Babes 4* they keep getting better.

Busty Babes 4 contains 1,000 high resolution pictures in the style that has made the series famous. The program breaks the images down into several categories so you can find what you want without paging

through endless menus of photos. The GIFs play smoothly through a QuickTime slide-show interface that lets you move through the selections at your own pace.

The "Funnies" category, for example, is a riot. In this area, several of the pictures from each of the other groupings have speech balloons added to them for maximum comical effect. Some of the images are priceless. All the pictures on this disc are of the highest quality.

Ten superior funky jazz soundtracks accompany the QuickTime slideshow. You will also find several different viewers in both MAC and PC

formats for checking out the stills.

There are shots here for everyone's taste, including a variety of pairings, threesomes, amateurs, and several somewhat novel fetishes. All the files on *Busty Babes 4* are BBS ready. They come in GIF format and almost beg you to use them in some application for your personal pleasure.

Busty Babes 4 extends the series that has continually improved the quality of interfaces and photography in the picture disc classification. It's easy to see why this title is a 1995 AMEE award nominee.

WHAT'S YOUR PLEASURE?

Every neighborhood should have a Pleasure Park, on a seedy looking street awash in auto noise. Point your mouse into the doorway of the club. The car noises fade into high energy dance music. Once in the heart of the club, you can choose from three rooms.

"Pussy Heaven" has large screens playing hot, X-rated scenes. They can blow up to full screen. In a corner of the still photo, a grainy X-rated clip runs.

"Sex-O-Drome" continues the "dance club" theme. Six TV screens pulse to techno rave music with a collage of sex scenes. Each TV features a different collection of X-rated movie clips from the vaults of Private, one of Europe's larger providers of adult entertainment. The action ranges from group orgies to fellatio to dildo-using leather fetishists. The TV screens shuffle through the scenes with eye-blurring speed. Towards the end of each collage, you get an expanded snippet of a movie. You can magnify

the clips to full screen size if you don't mind the pixilation.

The "Play With Me" room is the centerpiece of this program. Enter the room with blonde Sharleena, and use your hands, mouth and a vibrator to convince her to have sex with you. There are four buttons at the top of your screen (the above three tools, plus a penis). To get Sharleena in the mood, you choose the appropriate "tool" and touch her erogenous zones with it. If you please her, she'll urge you on, or show you a short clip of a faceless male performing your chosen action on her. If you move too fast, she'll cross her legs and have you

start from scratch.

The game includes a panic button that sends you to a blank screen allowing you to ditch the disc at a moment's notice. The specs on the back of the disc say it needs 8mb RAM and it means free, not total. An 8mb Pentium kept getting a "not enough memory" error. A 24mb Power Macintosh ran it fine.

Private Pleasure Park would be better if the corridors offered more options and more "virtual" girls.

A couple of the club walls are "boarded up" with signs like "peep show" to open in *Private Park 2*. Keep on the look-out for Private's expansion module, your path to more *Private Pleasure*.

ED TSUNODA

WHAM, BAM, WHERE'S MY RAM?

DID THIS EVER HAPPEN TO YOU? You get a brand new adult CD-ROM title, and race for your computer. After running the install program and double clicking the icon you get this message, "Insufficient memory to run that application..."? This and several other error messages are caused by a lack of available RAM, but don't panic. This problem happened to me, but it can be solved.

Here is my story.

I had just gotten my all-powerful-multi-media-dream-machine (a 486/66mHz with 8mb of RAM, whoa...that dates me). I couldn't wait to load it up with all of the coolest adult utilities available. I loaded *Penthouse* wallpaper featuring tiled photos of the incredibly lovely Janine Lindemulder in dozens of striking poses. Next it was the *Lovely Lady Icon Animator* featuring little animated icons of the incredibly lovely Janine Lindemulder in dozens of striking poses. Finally, I added the *Fabulous Female Screen Saver* featuring a slide show of the incredibly lovely Janine Lindemulder in dozens of striking poses.

And then it happened. I loaded *Hidden Obsessions* (featuring the incredibly lovely Janine Lindemulder) and clicked the icon and....nothing. I was devastated. I downloaded a *Windows* system resource program to try and find out where the 8mB of RAM I had just bought went. Here's what I found. Janine had stolen my heart, soul, and 70% of my available RAM. Any program that runs in *Windows* uses up some of your RAM.

To maximize the available resources of your PC, you're going to have to bite the bullet. Sure, watching Janine Lindemulder do splits across your *Quicken* icon may be fun, but you want to minimize the number of programs on your system. First of all, click on the "Control Panel" icon and then

"DeskTop". Turn off your wallpaper and screen saver, particularly if they are graphics intensive. Next, if you have some wacky animated icon program, disengage it. Those little buggers eat memory. Now, prepare to make some *real* changes. Open NotePad and use it to view your "win.ini" file. This is located in your *Windows* directory. As you scroll down the endless stream of information, realize that each line of this ".ini" is telling *Windows* something it needs to keep in mind. On a computer, "in mind" means using RAM. All of the fonts you load and never use, all of the drivers for VGA video when you are using SVGA, all of the references to programs you deleted two years ago use up RAM so *Windows* is ready for you to use them.

Your first step toward RAM rehabilitation requires you make a copy of your "win.ini." Name it "win.old" so if you mess up you can get back to where you started. Then you need to clean up your ".ini". I recommend using a commercial Uninstaller program. Most of them have .ini tuners which make it very simple. They will scan your win.ini and notify you of references to deleted programs and redundant references. Some of these programs also have font removers and program deleting functions. The next time you delete a program, it will remove the RAM-eating remnants for you.

After this total cleansing of your system, exit out to the DOS prompt and type "DEFRAG". This will optimize your file allocation and clean up your hard drive. You should do this periodically anyway, but always after deleting a program. Now try running your CD again. Presto...a full length movie featuring the incredibly lovely Janine Lindemulder in dozens of striking poses. **IQ**

the Playhouse of *Earthly Delights*

By Hank Bordowitz

THE CURRENT BURNING PASSION IN VENUS DELIGHT'S LIFE RIGHT NOW IS ADULT CD-ROM. VENUS (YES, HER FRIENDS CALL HER VENUS), HAS A WAY OF MAKING PEOPLE INTERESTED IN HER FASCINATIONS. FIRST OFF, HER GOOD LOOKS STOP TRAFFIC. ROUTINELY. SHE WON SIX CONSECUTIVE MISS NUDE UNIVERSE TITLES. FANS AROUND THE WORLD KNOW HER AS A STAR OF EXOTIC DANCE. HBO'S REAL SEX FEATURED HER DOING HER ACT.

I appreciate erotic art. I'm fascinated with it,"

coos Venus Delight.

"They filmed my show for HBO, for *Real Sex* #5," Venus smiles, recalling the shoot for the sporadic cable TV series. "I have a very elaborate show that involves revolving stages, pyrotechnics, fog machines, bubble machines, coffins, bathtubs, champagne glasses, danc-ing ventriloquist dolls, snakes and iguanas...actually my iguana ran away."

People, particularly men, pay big time attention to Venus Delight. With the release of her debut CD-Rom *Venus' Playhouse*, it will be easier for men to pay attention—close attention—to Venus Delight.

"It's just so new," she says of her latest passion. "It's like being on the ground floor of the movie industry or something. These little talkies coming into being. The possibilities are so limitless."

Venus entered the interactive fray in a characteristically big, energetic fashion. A co-venture with Adult Interactive Software, she produced, directed, wrote

and starred in *Venus' Playhouse*.

Her co-stars include Julia Parton (her best friend, Las Vegas neighbor and fellow exotic dancer). The two of them do one of the sexiest and most natural bath scenes on interactive disc, as if they have

been bathing together all their lives. They have an interesting relationship off-camera as well.

"She lives three doors down from me," Venus says. "It's almost like a competitive thing that helps spur me on. She's my best friend, so it's cool. We do that for each other. It's good for us."

The CD-Rom and companion video also features two Nude Universes, three *Penthouse* Pets and the most photographed nude model in the world. And let us not forget Katt Chex and her Siberian tiger "Sherakon." All told ten of the most beautiful women ever digitized appear together on one disk. What she wound up making might be the industry's sleeper hit, a classy, funny, sexy, smart, all-girl romp, not unlike Venus herself.

Very few areas in the field of adult entertainment have escaped Venus' professional interest. A former publisher of *Cheri*, she helped refocus the well-known men's magazine, concentrating on exotic dancers. She got the position with a little encouragement from Julia.

"I saw this magazine that could use a woman's touch," she says. "Julia was working with *High Society* at the time. When I was in New York, my manager and I went in and spoke with [editor] Ken Kimmel. Julia would drop my name whenever she went up there. We just planted the seeds. It took about a year. All of a sudden they called me up going, 'We'd like you to be our publisher. We want you to find girls, scout clubs, give us the exotic dancer inside track kind of thing.' They were pushing toward the

exotic dancer side of the business, so they thought I would be a perfect choice."

This would come as no surprise to anyone who has seen her show, which features the standard exotic fans and the more exotic touches like enormous champagne glasses full of soap bubbles. She co-produced the video *World's Best Exotic Dancers*, hosting the entire program and performing part of her show. Beyond conceiving and executing her live show, this experience was about all the preparation she had for the Playhouse shoot. It would seem to be all she needed.

"We shot for three days," she notes. "We had three cameras, two Betacams and one underwater camera."

Add the crew it takes to run these things along with the cost of hiring ten stunning women and you have a mighty expensive production. Most of that money came out of her...pockets?

"I spent a lot of money on this thing," she concedes. "People are probably thinking, who's this person? It's not like I have a name in the business like *Penthouse* or something. It's going to take time. I understood that going in. I figured the best thing to do was to come out with something quality and keep coming out with quality products. Eventually it will speak for itself. That's always been my motto: Let it speak for itself. Let my show or whatever it is I'm doing speak for itself."

Her stage show speaks for the technical side of Venus' nature. However, she admits going into adult CD-Rom with a possibly lethal combination of energy and ignorance. You would never know this to look at the intuitive interactivity of the disk, but Venus had never played a Pixis or New Machine title on her old laptop PC.

"I've seen very few," she says. "I saw the *Penthouse* one on someone else's system. It wasn't working properly. I saw a poker one or something. Very few. I don't even have a CD-Rom player. I have a laptop that I just carry around

with me. A little black and white laptop. It wouldn't be that good on a black and white laptop."

Again, Julia Parton acted as the instigator, putting the sand in the oyster to get this interactive pearl started. "She's the one who got me interested in doing interactive CD-Roms," Venus concedes. "She came home from being on the road one day. I had never even heard of interactives. I didn't even have a computer yet. She was all excited, telling me about interactive CD-Roms. She met this guy in St. Louis who was going to help her, and we should do one together. Next thing you know, she's doing one without me. That spurred me on. I just did my own. Mine got done. The guy that was helping her was not quite capable of doing it right. It's done now, though."

"It's being beta tested for the sixth time," Julia adds from elsewhere in the room.

"It's called *Julia and Friends*," Venus continues. "It was supposed to be *Julia and Venus and Friends*, but she let me go off and do it on my own."

Despite her relative inexperience in the field, Venus went at it full throttle. The CD has scenes with six lev-

Venus and her friends make themselves at home...all the video for Venus' Playhouse was shot in her Las Vegas residence.

els of interactivity going into about 24 possible scenarios. As adult interactive CD-Roms go, that's pretty good.

"That was my idea," Venus states. "The whole thing was planned out by me. I shot all the scenes specifically to make them interactive for the user. That was my intention. I'm learning more now that I've gotten involved, but it was strictly off the top of my head. I didn't know what anyone else was doing. I just did what I wanted to do."

Venus' Playhouse is more than just a title. Venus and her crew shot all the video on the CD-Rom at Venus' Las Vegas home. "That's why it's called *Venus' Playhouse*," she laughs.

"I saved on the location fees," she adds. "The feast scene was in my living room/dining room area. I don't know if you can see it clearly, but there was this huge, French, antique, gold table. We had dry ice and stuff coming up around it. I have this balcony that goes overhead of the living room, so you can shoot straight down. We had telebeams coming in from all angles. That was a beautiful thing."

During that scene, most of the other models turn Venus into one of the most delectable fruit salads you have ever seen. "Everyone who sees that says, 'After I watch that scene I get so hungry,'" she giggles.

The companion video has footage that's not available on the CD (though may be on the next one). All told, Venus had 30 hours of film and tape to use in making this project. The video seemed like a natural way to go.

"Much footage that's on the video and not on the interactive was shot around Los Vegas and around Red Rocks Canyon, which is just outside

Las Vegas," she says. "We were walking around topless in Red Rocks Canyon, up by this water fall, really pretty stuff. The game warden came and kicked us out. He just wasn't game. It was funny. There were all of these rock climbers waving. I was afraid one of them was going to fall."

am the product."

While *Venus' Playhouse* is still climbing the sales charts, Venus already has plans for her next interactive adventure. "We couldn't fit everything we had on the CD-Rom. Dyanna Lauren had her whole scene from *Venus' Playhouse* cut. We just didn't have room. It was such a good, strong scene that I'll put her as the star of my next one. Dyanna was a cover and centerfold in *Penthouse* and *Vivid* just signed her. She'll be my next star for *Venus' Two*."

"My partners at Adult Interactive have upgraded so that they can do much

more. There's a lot of things I'll do differently. Next time I'll have more graphics, more interactivity, more science fiction and fantasy. In Part Two, instead of just normal rooms in a house, it will be fantasy rooms, maybe little fetish things. Incorporate earth, air, water, fire. I don't want to give it all away. I picture three dimensional, virtual reality images that are right on the floor of your living room. Not on a box or on your TV."

Of course working on her current CD-Rom, Venus learned some of the pitfalls of doing a shoot, particularly one for an interactive. For one thing there are no men in *Venus' Playhouse* except the viewer when he comes in.

"Since I didn't have any men in the shots," she explains, "which obviously limits you, I tried to do little subliminal things, like the girls squirting the cream on each other's breasts. In my bath scene, I have the water spraying up in my face. I used lots of tongue. Just very sexual things done in a very erotic way. I wanted it to be hot. I still wanted people to get hot watching it. I just didn't want to do hard core."

There are dangers inherent in every shoot. This is particularly true if you are working with fire and animals.

"When Julia and I were doing the bath scene, there were candles all over the place. I leaned my head back and my hair caught on fire," she recalls. "Then, the tiger tried to attack the camera man, and also attacked one of the most beautiful models at the shoot. She leapt for the model and sliced within millimeters of her face. Ripped the sun glasses off of her. The model jumped

valerie RIDES again

Is it me...or does Virtual Valerie have more than just a passing resemblance to *Baywatch* babe Pamela Anderson? Not that I'm complaining, mind you. The new *Virtual Valerie 2* CD-Rom helps bring many personal fantasies of the lovely Ms. Anderson to life. Virtually, that is.

Virtual Valerie 2 is the eagerly anticipated sequel to the original, and now legendary *Virtual Valerie*. Val

is back and friskier than ever. The program opens with Valerie pulling into the discrete No Tell Motel on her thundering futuristic motorcycle. Once inside, you navigate through a long hallway (the purpose of which I still have not yet determined). Then it's time to play *Let's Make A Deal*.

You have the choice of three doors. Behind each is a theme room. Room 1 is the oral sex room, Room 2 is the sexual intercourse room and Room 3 is the voyeuristic/ mechanical sex room. Each offers variations on sexual acts that you can perform with the amazingly limber Valerie. There is a total of 17 different sexual positions.

The object of the game is to pleasure Valerie and bring her to orgasm in each position. Buxom Valerie offers verbal encouragement to help you understand what she needs from you. As a reward, Valerie gives you more innovative ways of entering her virtual orifices.

Virtual Nudity, Virtual Penetration, a Virtual Pam?

Valerie gets a helping hand

The more you score, well, the more you score. The lucky stud that gets Val up to 1,000 pleasure points gets a special treat from the flax-en temptress.

You must learn from

This level features several truly inventive sexual positions that would make even Ginger Lynn blush. This pleasure zone is not for the weak at heart.

Despite the thin story

sound and music are top notch, as are the other technical elements that can easily make or break a project like this.

Virtual Valerie is on the shelves now. Maybe *IQ* readers can somehow inspire Pam Anderson to someday star in a *Virtual Valerie* movie. Until then.....we'll always have the No Tell Motel. —BUDDY SCALERA

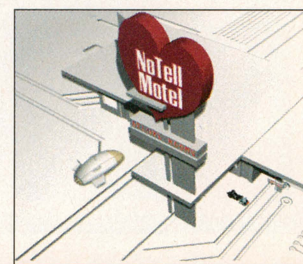

Features several truly inventive sexual positions that would make even Ginger Lynn blush.

experience what type of action gets Val off. For example, when she is being pleased on the mechanical sex machine in Room 3, it is important to caress her target areas with your black-gloved hand. That will help increase your score. Valerie also has her turn offs, like when you push her head down during oral sex. That'll cost you points, buster.

Truly intuitive lovers can crank Valerie up to reveal the Secret Buttblaster Level.

line, *Virtual Valerie* still manages to satisfy. She's programmed that way. Besides, Val looks enough like Pam Anderson for a fertile imagination like my own to fill in the blanks.

Fans of the original *Virtual Valerie* will definitely like the sequel. There is a reason that people in the know consider programmer Mike Saenz one of the best at what he does; it's all in the details. The animation and 3-D rendering are masterful and intriguing. The

IQ REVIEWS

VIRTUAL SEX
VCA

★★★★

This very hard-core disk could have exemplified what adult interactive games are all about. Virtual Sex gives you the

bitchy the next. You have several choices each step of the way (start with a neck or a back rub every time, trust me). The game even offers a few second chances. "I don't think

dammit, I have not hit a home run yet, after two weeks of trying. And there's the rub. You have to successfully get it on with all three ladies consecutively before you get the ultimate reward — one of three four-minute hot, hot, hot sex scenes (one straight, two lesbian) starring the delightful Kelly O'Dell. I know because I finally cheated and used my movie player to take a peek.

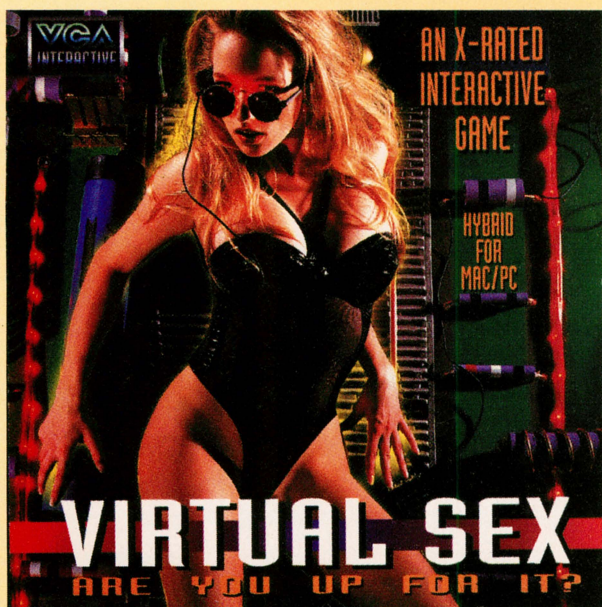

Of all the various adult CD-ROM offerings I have seen to date, this is the clearly one of the best—and one of the most exasperating. There is a help button that should provide some clues, but, on my system at least, it proved about as responsive as one of the women when she was in a snit.

headache.

opportunity to test your love-making skills on three delectable babes—a buxom cheerleader (J.R. Carrington), a sexy nurse (Tyffany Million) and a sultry stewardess (Missy) — one at a time. Given to drastic mood changes, you might find gals, eager and willing one time, angry and

she likes that," the game will warn you. Other times you might be advised to "Use your head" (both a warning and a clue). Make a flat out wrong pick, though, and the game shuts you down like a loser in a singles bar.

Hey, I'm no Casanova by any means, but

Exemplifies what adult interactive games
are all about.

**VIRGINS 3: THE TEMPLE
OF VIRGINITY**

DIGITAL PLAYGROUND

★★★ as a movie transfer

In *Virgins*, the first in the series, Digital Playground offered us a handful of 'real' (read: 'average') looking women and interviewed them about their sexual preferences while they rolled and tumbled across a motel room bed and made unassisted-merriment. The limited interactivity simply involved clicking on a blurry looking still of which girl you wanted to see

next. In *Virgins 2*, they upgraded the interface, found a handful of slightly

REVIEWS IQ

What's your name, baby?

more attractive looking ladies and tossed in an occasional KeyGrip or Best Boy who apparently could no longer contain himself.

Now, in *Virgins 3*, they have rounded up the best looking ladies of the bunch, and added a downright palatable interface. The

impressive intro graphics might lead you to believe this could be something different. Alas, the video is just more of the same.

Virgins 3 does add an excellent full screen blow-up feature. While somewhat pixel intensive, it runs very smoothly. The program also lets you choose between the interview and the full-fledged sex scenes that were only occasional diversions in the last offering.

If you prefer "real" looking women, this disk ought

to delight you with its high quality graphics, interface and video. It does not, however, make it as an interactive title. *Interactivity* requires more than thinly veiled play buttons. If you liked the first two in the *Virgins* series, though, this is by far the best of the bunch.

"I'M YOUR'S," VENUS!

Interactive takes a giant techno-step forward with *Venus' Playhouse*. So many of the recent flood of erotic CD-Roms lack what Venus Delight delivers. Here's true state of the art with a really satisfying interface, far ahead of other 'interactive' CDs. Until virtual reality realizes its promise, Venus' production values sets the standard.

In *Venus' Playhouse*, you click once - literally knock on the door - to enter a Las Vegas mansion full of willing, beautiful women, including two Miss Nude Universes and three former *Penthouse* Pets. Follow the exquisite Venus Delight upstairs, outside, or anywhere. Don't pass up any doorways, please. After visiting the kitchen you'll never look at chocolate syrup in the same way! And that private visit to Venus' bedroom is the ultimate definition of interactive. Be careful, she knows how to turn the

tables on your interactive self.

The "Ray-Traced" interface and superb graphics control have none of that distracting, jerky motion often found in CD video. Instead you get shimmering, pearlescent visions often of the world's most beautiful women. They don't disappoint. The score will make those tired speakers on your computer sit up and take notice, particularly during the opulent dining room finale.

Some scenes might be a little tame - good clean fun with soap, water and lovely bodies. The title sequence also lasts way too long. Yet, a touch of humor shows class far beyond expectations—see what happens poolside if you click "no" too often!

The disk is a hybrid CD, both IBM and Mac compatible, with 50 minutes of scenes. A 72 min. VHS video exploring the Making of *Venus' Playhouse* is also

available and well worth considering.

Buy this one. It's that good.

THE PREMIERE ADULT CD-ROM MAGAZINE

<http://www.iqmag.com>

Yet another movie posing as an interactive, *The Dinner Party* makes up for its lack of "true interactivity" by offer-

to get into some of the action themselves. Unlike most dinner parties, you have the option of skipping

who's coming to DINNER

ing a wider variety of sexual scenarios than most adult titles. The program invites the viewer to choose from a buffet of hot scenes. Just point and click at one of the table settings and an elegantly dressed dinner guest talks about his or her fantasy. Then the fantasy comes to life. Later, the guests decide

the main meal. Just click on that plate and skip straight to dessert.

Most of the clips approach sex from a different and often clever angle. For anyone who fondly remembers playing "doctor," check out the scene in a gynecologist's office. Featuring a trio of women playing patient,

nurse and doctor, they use the tools a gynecologist has at her disposal in a way most doctors would not dare. In another segment a woman does a striptease for a man trapped behind a glass wall. She works him into a frenzy as a truly untouchable woman. But watch out. The glass makes for a messy ending. The best dish at this smorgasbord has a pair of dominatrices, one brunette and one an incredibly cute blonde, take full advantage of a male slave they have at their service.

Beyond the videos, a set of pictures goes with each scene. Some seem to be out takes. The only disappointing part was the orgy involving the guests themselves. For a group of people with such hot fantasies, you would expect better. It would be tough to live up to that kind of build-up. Still, *The Dinner Party* has something for everyone: Hot scenes, hot players and a clever interface.

GET READY FOR THE MOST EXCITING FRONTIER LEFT TO MAN: the world of cyber-exploration. With thousands of places to start, home-pages twinkle temptingly like stars in a never ending cyberspace. But anyone with a modem can reach these stars, which go beyond commercial Web sites. In addition to giving their views an international platform, these personal pages provide the web surfer with links to the page creator's favorite Web sites. These pages link to others and so on, and so on, and so on. A single Web address can lead you on a journey to hundreds of places around the world in the time it takes you to dig through your e-mail.

For *IQ* readers wary about starting on

tokyo topless? it's all here.

this journey, this column will simulate a short cyber-trip. Relax, it's perfectly safe (unless you're paying for your Web time by the minute). Besides providing a list of cool pages to view, we will embark on a Hypertext journey through Cyber-Space demonstrate the power of the Web.

Look beyond the design and information available on the page itself. The attraction of any single address on the Web lies in its connection to other related sites throughout the world. These 'Hypertext Links,' displayed in blue on your monitor, take you to far off lands and allow you to explore the world. From the darkened corners of home offices anywhere, you can scour the world for information, opinion and just about anything you want to find via the World-Wide-Web. For a cyber-novice or 'newbie' the

Web may seem a daunting challenge. Fear not, *IQ* will show you the way.

All aboard? Seatbelts fastened? Okay...here we go! First we need a starting point. We recommend that any *IQ* reader start every journey through the web at the new Web home of *IQ* magazine, *IQ On-Line*. Besides some of the reviews, news and product information you would find in an issue of *IQ*, you will also find Hypertext links to many cyberotica publishers' home-pages and a link to one of the best Web search sites, *Yahoo*. The *Yahoo* page lets you type in a single search word, for instance 'sex' or 'adult' and then provides you with a list of hundreds of related sites.

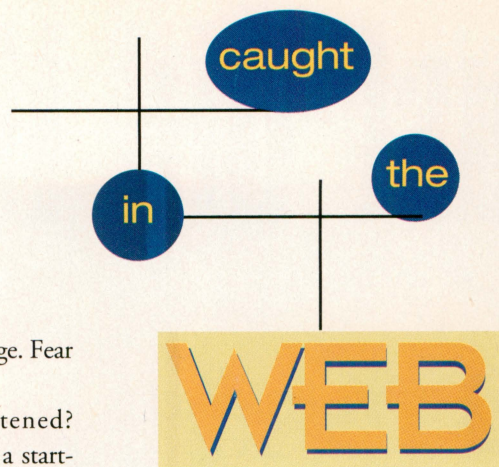

After looking through the review of A6 Interactive's *Tokyo Night-life* from the first issue of *IQ*, a hyper-text link will instantly transport you to the *A6* home-page. One of the best places on the

Web for adult entertainment, you will find cover art, descriptions, and screen shots for all of the A6 interactive products. More importantly, this site links you to many exciting places to visit on the Web. One of the best of these is *Japan Edge*.

Japan Edge features many links broken down into the following sections: Music, Art, Fashion, Articles, Culture, E-zines, and Cool Japanese. Each of these areas contains many links to relevant home pages. The adult area *Tokyo Topless—Fuzoku & Big Boobs* will surely catch the *IQ* reader's eye. Fuzoku, roughly translated, means adult entertainment. You just click here and away you go.

Tokyo Topless contains down-loadable pictures of a featured Japanese model, in this case Miki Sawaguchi. Take a couple

with Kathy Willets

From *Ladies Home Journal* to *Interactive Quarterly*.

Kathy Willets. Kathy Willets. The name sounds familiar, you say to yourself, but from where?

Perhaps you are familiar with her CD Rom, *Poker Party* (Digital Video Productions). Perhaps you've seen her adult video or CD-Rom *Seymour and Shane Meet Kathy Willets*. Or perhaps, if you're me, you ask her.

"Where have you been?" Willets laughs. "You don't know the story? About the deputy sheriff, his stock broker wife and the vice-mayor of Ft. Lauderdale? That was me."

The story broke in July, 1991. Kathy Willets was arrested for running a prostitution business from the Tamarac, Florida home she

shared with her husband Jeffrey, a Broward County, Florida sheriff's deputy. He had been arrested a week earlier for making money off of Kathy's "prostitution."

Kathy Willets, born Katherine Anne Morris on April 24, 1958 in New York City, grew up in Plantation, Florida. In 1991, to battle depression, she was prescribed Prozac.

Approximately 3.5 million people world-wide use Prozac, a popular anti-depressant. According to the Physicians' Desk Reference, Prozac comes with a long list of possible side effects. "Increased libido" is one of them. This happened to Kathy Willets. "She told her hus-

By Ruth Morrison

The Willetses started a 1-900 number to cover their pretrial expenses and allow Kathy to say “what she had to say.” They sold a poster of her for Christmas of 1991 and she worked as a dancer.

“I can’t go back to the stockbroker business. He can’t be a police officer. What are we going to do? I said “We’re going to take what we’ve got and run with it,” Kathy told *The Dallas Morning News*. Said Jeff: “This began when we evolved into a swinger lifestyle. She’s entertaining, she’s personable and she enjoys it. As long as she’s happy, I don’t have any problem with it.”

She posed nude for an issue of *Playboy* and appeared in a host of other magazines. The local March of Dimes even used her case as a theme for a fund-raiser.

THAT Kathy Willets. See? I knew you’d remember. After the case broke, the Willetses lives changed forever. They were interviewed by everyone and anyone. Including *Ladies Home Journal*.

IQ: What were you doing in *Ladies Home Journal*?

Willets: I was in *Ladies Home Journal*, I was in

“The media will film you
they want. When I do

band, ‘I’ve got to have men and you have to start servicing me or I’m going to leave you,’” her former attorney Rubin said in a September, 1991 *Ft. Lauderdale Herald* newspaper article. “He said, ‘Hey baby, don’t leave me. We’ll work something out.’”

What they came up with was a personal ad in the *Ft. Lauderdale Sun-Sentinel*. “FROSTED BLONDE. Great tan, hot body, very sexual, turquoise eyes, romantic & sensual, seeking generous, affluent executive male for day/evening interludes. Fun loving & hot. Enclose business card.”

According to the Associated Press, Ft. Lauderdale Vice-Mayor Doug Danziger was “a conservative crusader against wild spring-break parties, topless bars and adult bookstores.” He campaigned for a wholesome, family-oriented tourist market. He helped drive college students on spring break out of the city, banning liquor in nude bars and fighting pornographic bookstores.

He was also among the approximately 50 men who responded to the advertisement and met with Kathy on a regular basis.

Allegedly, Jeff Willets would watch from a nearby closet and take notes or watch the proceedings. A 32-minute video of Kathy and Danziger was evidence in Kathy’s case and has been deemed a public record. The story became front page news, and suddenly Kathy Willets had the limelight.

Woman’s Day. I think that it was because the article was about a woman’s point of view about having sex. The gentlemen want the same thing and the only thing that happens is that they prosecute the woman. I feel very deeply about that. There seems to be a double standard here. Men get away with murder. What happened to all the men who were supposedly with me? Nothing! Nothing happened to them. And one was an elected official from the State of Florida, from Broward County, right here.”

IQ: I am going to ask you questions that no one has ever asked you before.

Willets: (laughs) I doubt that, but go ahead.

IQ: Do you consider yourself computer literate?

Willets: (chuckling softly) Yes.

IQ: Can you program your VCR?

Willets: (still chuckling) Yes, I can.

IQ: Will you program mine?

Willets: (laughs loudly.)

IQ: What’s your general feeling towards the “information superhighway?”

Willets: Computers are our future. Knowledge is great for people. For people to be ignorant or not involved in things, in life — that’s sad. The more into technology, the more knowl-

edgeable people become, the wiser the decisions they make. How can you be against not being ignorant?

IQ: What about CD Roms?

Willets: With a CD Rom, you get to put out your feelings, your emotions, your expression. This contradicts what the media does to you. They will film you for forty five minutes and put in two minutes of what they want. When I did the CD Rom, that was me. That was Kathy Willets. That was not just the sound bite they wanted to use to portray me, which is what the media does.

IQ: How did your entertainment career get started?

Willets: It just came from the publicity that I received from my case. Movie people and others approached me with ideas. That's literally how I started.

The first thing that I did was *Seymour and Shane meet Kathy Willets*. I took my time with that one; I wasn't even sure that I was going to be doing these type of movies. But it seemed like a really good company and there was a really good attitude from everyone, so I went with them. And it went to #1.

People come up to me and say, it really looks as though you are having a good time, that I am enjoying what I am doing. I think that comes through. That's why *Seymour and Shane meet Kathy Willets* did so well."

Terry is a really good guy. When you find someone who's really good to work with, someone who's honest and up front, then you go with them.

IQ: Did it take longer to shoot than an adult film?

Willets: Oh, a CD Rom takes much longer than a film. What you do in a porno movie comes naturally, so it shouldn't take quite as long. Where you've got a director and people telling you what you have to do, that takes a little bit longer than just getting into bed and having a good time with someone. So that's the difference.

IQ: Was CD Rom production different than film?

Willets: Well, the CD Rom with Terry was very professional. The scheduling, time, everything. When I got there everyone was ready to go, and it was very professional. They ran it like a business. I really, truly liked that. Yet, we had fun on the set and my personality came out. But this is a business and everyone was on time. It was totally different than a porno film. With porno movies, sometimes the girls don't always come there on time and that kind of thing. You've got to deal with that.

IQ: Do you have plans to do more CD Roms?

Willets: We are talking to some people right now. But like I said, I'm very selective. I have to truly get along with the people before I even think about it. I'm fortunate to be able to do that. A lot of girls

for forty five minutes and put in two minutes of what the CD Rom, that was me. That was Kathy Willets."

IQ: You haven't had the most prolific of adult entertainment careers.

Willets: I haven't done many, because I've been very selective about what I do. I could be doing movies every single day. Either I don't believe in the project, or I don't want to work with the individuals. I do things that I believe in with people that I like.

I do things where I am most comfortable. Being in the public eye doesn't mean I'm very comfortable around a lot of people. So if I do a project, that means that I believe in it and I am very comfortable with the people that I am working with.

IQ: The CD Rom is *Poker Party*. Why Strip Poker? Do you play poker?

Willets: I don't have that much history of gambling.. But the project sounded interesting. I like to do different things. It was a challenge. I liked that. I don't gamble but I like a challenge. It seemed like something different. The fact that it went to CD Rom and the fact that people can put that into their computer at work... it turned me on.

IQ: So how did you get started in that specific CD Rom project.

Willets: Well, Terry Woodward, of Digital Video Productions approached me. Because of my name and my notoriety, everyone approached me. I had the option of choosing which product I wanted to be involved with. I chose the *Poker Party* because I thought it was very good. I thought the people behind it were extremely intelligent

in the industry are not.

IQ: What do you predict for your future?

Willets: I'm going to be the number one super-mega porno star in the country and from there I'm writing my own book. I'm going to build my own industry and run my own life. I plan on retiring in a couple years
